giant whales and cavorting dolphins in their natural habitat.

On this journey you will witness some of the ocean's most playful and majestic creatures as they search for food in the warm Caribbean waters, porpoising for air and making big splashes with their tails.

Spinner and Pantropical dolphins are usually spotted frolicking just a few miles off the coast. From there, your boat heads into deeper waters to spot pilot and sperm whales. If luck is on your side, see the giant humpback whale or even a false killer whale.
